To North Harbour Property Owners and Residents:

We need someone to step forward to become the Shed Captain for the Sea Way shed. Responsibilities include basic maintenance, such as start the generator monthly, cleaning and organizing the shed, etc. All other sheds are minimally staffed. Sea Way is the only one with no official Shed Captain. Thanks to the Sea Way neighborhood for taking care of the shed the last couple of years. In today's world, edging towards post pandemic, we are all busy people. If one more kind soul could come forward, we would all be grateful!

CERT Training:

Dr George Flores has connected us to Geoff Peters of Northern Sonoma County CERT, and University of Utah Online for Basic and Advanced CERT training. The Advanced CERT training is a great online class. If you wish to take the course, go to the universities website and follow the prompts. Once you complete the course, send your certificate to George and he will guide you from there. His email address is: snorkel10@gmail.com.

Bodega Bay Fire and Protection District:

Our outstanding and dedicated firefighter paramedics still need your support. Consolidation with Sonoma County Fire is so important to sustain our quality fire and rescue service. A kind letter expressing your concerns in a non-abrasive manner will be helpful. Send your letter to the Sonoma County Board of Supervisors, or any other government entity you prefer. With summer upon us, we can expect more visitor rescues. No one wants a tragedy.

Fire Season Preparedness:

Do you have your landscape in order? Defensible space around your home? What about a "go bag" just in case a fire or another natural disaster develops?

There was a vehicle fire in Bodega recently that could have developed into a significant wildfire, potentially triggering evacuations of Bodega Harbour. A quick response by our professional and volunteer fire fighters, and favorable weather, kept the fire to a minimum and extinguished before it got

out of hand. How would you have responded with a significant wildfire threat giving you little to no time to evacuate? Now is the time to give this thought and be prepared.

Remember, without our wonderful community members, our local CERT would not exist.

Thank You All!

Bodega Bay Certified Emergency Response Team
